My expertise includes: • Technical SEO • On-Page SEO • Off-Page SEO • Local SEO • Keyword Research • Competitor Analysis • Google Search Console • Google Analytics 4 (GA4) • Website Audits • SEO Reporting • WordPress SEO • Content Optimization I enjoy solving website performance challenges and continuously learning the latest search engine optimization techniques to deliver measurable results. I'm always open to connecting with SEO professionals, recruiters, and businesses looking to grow their online presence.

Experience

Niralsoft

Search Engine Optimization Analyst

September 2025 - Present (1 year)

Madurai

Roles & Responsibilities:

Performed comprehensive keyword research and competitor analysis to identify organic growth opportunities.

Optimised on-page SEO elements, including meta titles, meta descriptions, header tags, image alt text, and internal linking.

Conducted technical SEO audits to improve website crawlability, indexing, and overall search engine performance.

Monitored website performance using Google Search Console and Google Analytics 4 (GA4).

Created and optimised XML sitemaps and robots.txt files and implemented canonical tags where required.

Managed local SEO by optimising Google Business Profiles and improving local search visibility.

Built high-quality backlinks through directory submissions, profile creation, business listings, and guest posting.

Collaborated with content writers and developers to implement SEO best practices and improve website performance.

Tracked keyword rankings, analysed SEO performance, and prepared monthly SEO reports.

Worked on WordPress websites, ensuring SEO-friendly content structure and user experience.

Improved Core Web Vitals and page speed to enhance website performance and search rankings.

Stayed updated with the latest Google algorithm updates and SEO trends to implement effective optimization strategies.
